

I Love my ISP which is Brownwood online ... You would never get the close personal service I get from them from a phone company ... If I had wanted a phone company for my internet service I would have went to them in the first place ... Why are you wanting to put all these people out of work ... To take away there dream they have worked so hard to build is a crime ... There is room in this world for the small companies ... When are we going to put our foot down and say no to the greed of the big guy ... He does not care about the service we get from our ISP ... He is driven by greed alone ... I want to keep my American right to choose my ISP not to be forced into using someone I chose not to do business with ... You know this is wrong ... Turn down the petition and put a stop to this kind of take over and keep the American Dream alive for freedom and the right to choose.
